NO EXCUSE FOR PRESENT CONDI-TIONS.

AUDITOR JAMES is a good man, but he can not refrain from juggling figures to make a point against the late democratic administration in order to bolster up the present incompetent management of the State's affairs. Mr. James claims that the present condition of its finances is due in part to large appropriations by the Legislature, which did not provide for their payments but the appropriations were ro administration paid them and kept the tle excuse for the present condition. tax rate as formerly, with large increase in assessments. Besides the useless expenditure of \$160,000 for soldiers to put down the night riders, there have been other leaks in the James explain the [quite remarkable ministrations that have discredited the State, the [treasuay has suspended] payment and its warrants gone below par. It was so during Gov. Bradley's regime. It is so under Gov. Willson's. Perhaps after a while the people may be convinced that the republicaus can not be trusted with the State's management and vote so unanimously hereafter to keep them out of power that none of them will dare offer for State office again.

THE law makes the members of the fiscal court personally liable to fines of \$50 each for failure to publish the county's financial condition annually. The Franklin county fiscal court was indicted for failing to publish the report and after a hard fought legal battle escaped on a flimsy technicality and a promise to obey the law hereafter. The fiscal court of Mercer doesn't propose to suffer prosecution and fine, so it publishes the county's financial statement in the current issue of the Herald, which have 'em say the mother-in-law herself shows it to be in good shape. When courts flagrantly disregard the law, a suspicion is created at once that there is something rotten, not only in Denmark, but in the management of the county's affairs. Fiscal courts which are perfectly confident that everything is right will not permit themselves to the statements.

RUSSELL SAGE, who died leaving many millions of dollars, made and maintained a reputation for penuriousness that was equalled only by his accu nulations. They profited him little, however, as the only enjoyment he got out of his money was that of possession. Since his death his wife has been trying to make up for his closeness by being as liberal as he was tight-fisted. In the three years since he went hence, Mrs. Sage has given to various institutions and charities more than \$25,000,-000, nearly always in the name of her husband, who gets no credit for it here and does not serve to amelioarte his condition now and hereafter.

Stock scales and a large tobacco barn are among other improvements. land lies well and is of a high grade, are among other improvements. The land lies well and is of a high grade, well fenced, well watered a portion of it being matted with blue grass, in gently undulating pastures. Most of the land has been kept in grass and will easily raise 1,500 pounds of hemp, 1,800 pounds of to 75 bushels of coru. Such soil is the basis of all value, and the large profit, which it yields on the investment, explains why capital is seeking real estate, it being not only the best but the safest investment. This, together with the fact that population is increasing, thereby insuring a continuance, of good prices for farm products, proves that good real estate will continue to advance in price.

Besides the intrinsic value of a home, the locality and surroundings render it more or less valuable. Good roads, good, schools, churches and good morals are important factors, in determining the value of a farm, because they contribute to man's substantial happiness, which is the mainspring of human action and the object sought in every section of our God-fave.

The best equipped barn in the county, is on the where such schools have been established, premises, having water supplied by a wind-mill; The floors are built as residence flooring, the stalls are large and well constructed, machinery for cutting feed being run by an engine.

Where such schools have been established, keeping the money and children at home and giving them a good education. This ferm is some that those looking for a bargain in a some that has all the attractive features, to let us show it to them. This ferm is also within show it to them. This farm is also within four miles of a navigable stream, which is four miles of a navigable stream, which is of greater advantage for markets than the same distance from a railtoad, for it gives cheaper rates and better facilities for transportation to market of all farm products, and live stock can be shipped from one head up to a boat load, while coal and lumber can be purchased at less price. It is down grade to the river, and a good pike.

We positively believe that this land is worth \$100 per acre, and yet it is offered at \$90 per acre as a whole, if sold at once; however the entire farm is susceptible of an advantageous division into small tracts and we will divide it to suit purchaser and make price on what he wants according to location, improvements, quality and quan-

# CHESTER S.

Present season at D. S. Carpenter's stable it Hustonville at \$10 to insure a living colt.

DESCRIPTION AND PEDIGREE.—He is a black with star in forehead, it hands high, with all the style and finish characteristic of the Chester Dare family, a good acting horse and a proven breeder. See him before booking your mares if you are looking for a good breeder at living price. Sired by Chester Dare, ist dam by Telegraph. 2nd dam by Hippy, by Mambrino Chief.

# Almont Dare 3228.

A. S. H. R.

Stred by Dignity Dare 1982, he by Chester Dare 10, he by Black Squirrel 58, he by King William 77. Ist dam Toxaway 4798, also registered in Vol. 10, A. T. H. R. She by Abdallah Mambrino (3715), he by Almont (38) 2nd dam Lady Davis by Crit Davis, by Bourbon Chief; 3rd dam Mattie S., by Foreign Light, by Foreigner, by Imported Gienco; 4th dam Bettle C., by Cunningham's Copperbottom; 5th dam by Imported Buzzard.

Nors.—Almont Dare, so far as we are able to discover, is the first horse on record having to his credit the honor of defeating with his own progeny those of his great sire, Dignity Dare, doing so with his first crop of coits every time they came together. As an individual this is a very attractive horse, 16 hands high with iots of weight and finish, color, bay; action extremely high and fast. Shows 6 distinct saddle gaits, all very fast and pleasant. A full brother to the great gelding, Nettleton, that soid at 4 years for E,600 and to the great show mare, Foxy Dare, that won more premiums for the number of shows than any mare ever sired by Dignity Dare.

Were it not for two splints coming on him he would easily have won the State's Saddle Championship. This horse is a result of a long and careful mating of the very best the country afforded. His backing, in blood and individuality, is as strong as Gibraitar and his coits are rapidity proving him. See this horse and you will be well paid. He will make the season of 1000 at our stable, 2½ miles from Hustonville on the Hustonville & Liberty pile, at £15 to insure a living coit. Mares traded or bred elsewhere renders season due at time of such transaction.

Will also stand a mule lack at £3.

Grass furnished in abundance at £2 permonth. Our personal attention to all stock but will not be responsible for accidents.
